IMPORTANT WASH CARE INSTRUCTIONS

Always refer to your garment care label to ensure that your uniform looks as good as new for as long as possible. We produce tough, hardwearing uniform, however it is important that you follow the care labels correctly to ensure you get the best out of your purchase.

- Turn garments inside out to wash and dry
- Fasten any buttons before washing
- Do not overload machine
- Iron inside out on a cool setting to avoid heat damage, which can cause a shiny surface on fabrics (do not iron knitwear or cuffs and welts on sweatshirts)
- Bobbling/Pilling is caused by friction and excessive heat. It is also known within the British textile industry that fabric softeners are a major cause of bobbling/pilling of the fabric. Bobbling/pilling often disappears over time and is not a reflection on the quality of the garment.

Washing symbols and their meaning

Always check the label!!
